

**Maximize
Communication
Availability**

“Communication made very simple” Thanks to ABS India’s project management skills, detailed understanding of our requirements, excellent implementation & deployment, communication has been made very simple at Biocon.....

L. Joseph
Senior Manager

Biocon Limited is a fully integrated biotechnology enterprise focused on biopharmaceuticals, custom research, clinical research and enzymes.

With successful initiatives in drug discovery and development, bioprocessing and global marketing, Biocon delivers products and solutions to partners and customers in over 50 countries.

Every solution offered to companies worldwide is defined by a "value differential" that is provided by Biocon’s outstanding scientific knowledge pool, proprietary technologies and world-class facilities.

Biocon’s proven capability to research, manufacture and market high value biopharmaceuticals is an endorsement of it’s ability to meet global benchmarks.

The company is committed to finding biotechnology solutions for customers across the world.

Biocon was looking for a communication system that would connect both their office locations in Bangalore, i.e. Biocon & Biocon Park. Due to heavy calling traffic between the two offices, there was a need for congestion-less connectivity providing voice transfer requirements.

The company was looking for a communication partner who would plan, implement & deliver voice solutions, using the existing infrastructure & without any additional infrastructure investment.

Thanks to Alcatel Omni PCX Enterprise, ABS India could implement voice solutions between the two offices. ABS India’s technical expertise, project management skills & Alcatel All – In – One service portfolio could implement without any additional infrastructure costs.

Maximize Communication Availability

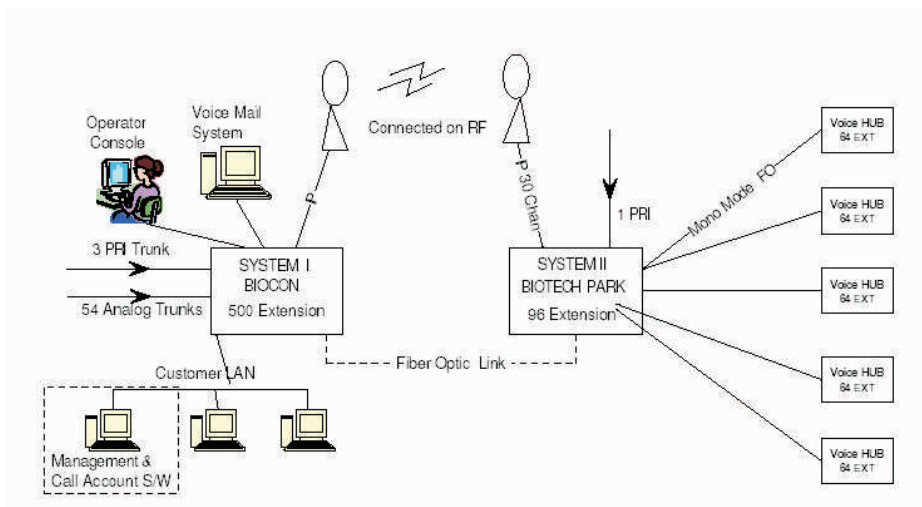

The Alcatel solution involved installation of Alcatel Omni PCX Enterprise system, which connected the two offices, on a single network and also uses RF (radio frequency) link, voicemail system with call billing management systems.

Today the Biocon & Biocon Park offices work on a MAN network. RF link has been effectively utilized for voice & data connectivity thus resulting in drastically reduced communication costs between the two offices.

Today Biocon effectively uses the state of the art, reliable, Alcatel Omni PCX Enterprise which helps in seamless connectivity, reducing communication costs and providing higher operational efficiencies.

Thanks to Biocon's confidence in ABS India & Alcatel, today communication is made simple.
